DESIGNED FOR ARCHITECTURAL IMPACT

IDEAL APPLICATIONS

- RESIDENTIAL DEVELOPMENTS
- COMMERCIAL BUILDINGS
- RETAIL SPACES
- HOSPITALITY VENUES
- EDUCATION FACILITIES
- PUBLIC INFRASTRUCTURE

Surface
0mm

Beginning Project (Raw concrete)

This is untouched concrete. It's quite rough and irregular, with subtle high and low levels throughout.

Cream (No exposure)

This is primarily an indoor finish designed for large areas, focussing on functionality over looks.

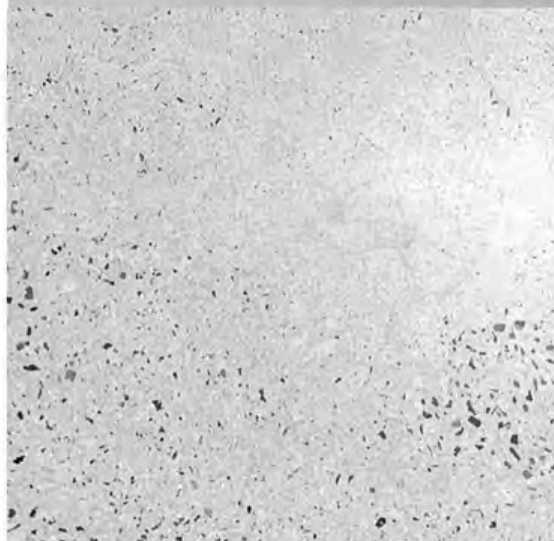

Salt & Pepper (Semi Exposure)

It's a semi-exposed aggregate or minimal exposure look, focussing on floor flatness and function. It's an ideal option for existing slabs, where exposure levels are not of primary concern.

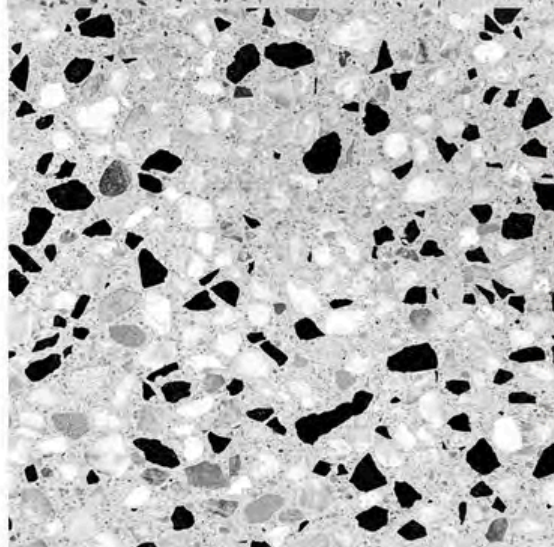

Premium Finish (Full exposure)

This is simply concrete at its best. This finish fully exposes the concrete aggregate and has the most aesthetic appeal to it. Floor flatness, reflectivity & shine are of the highest concern.

Grinding Depth

Surface
Upto 5mm

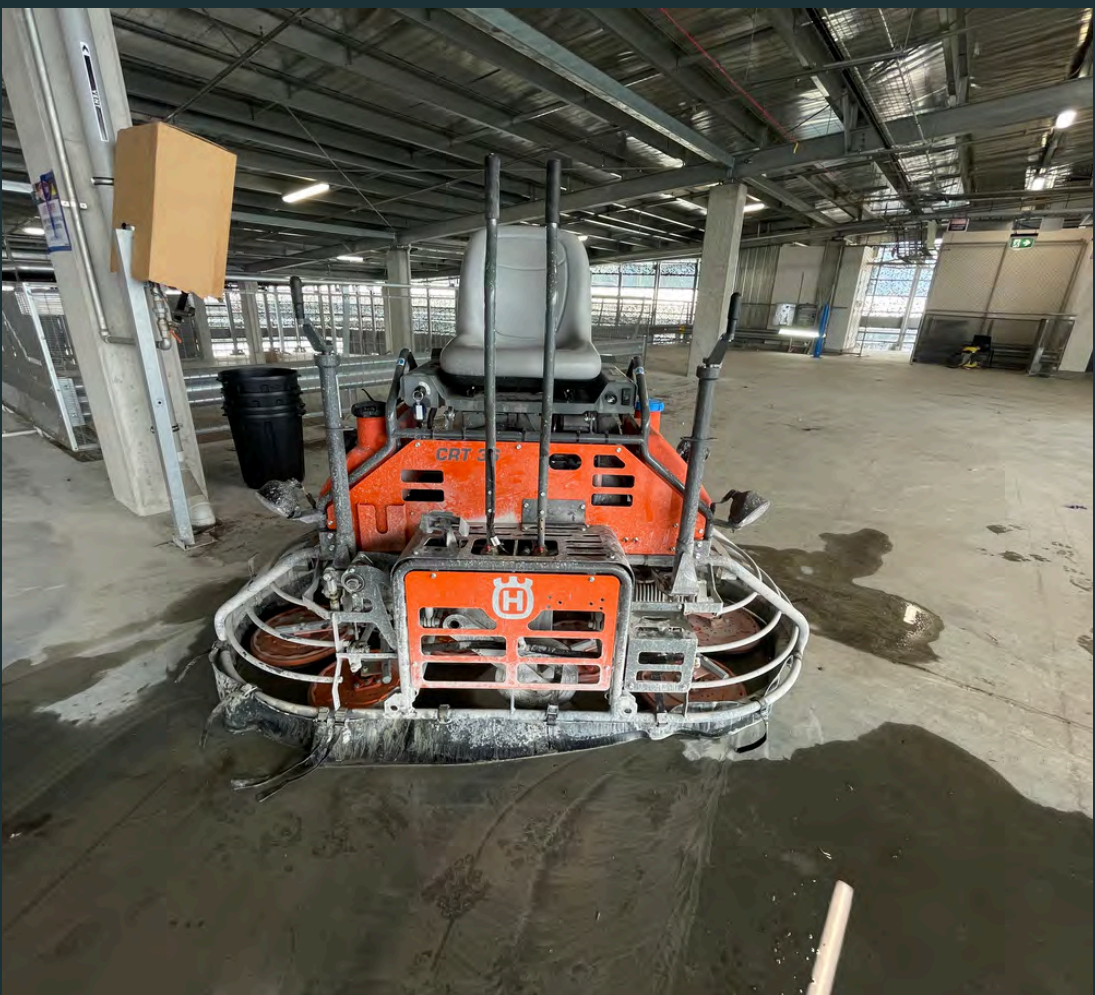

CHOOSE THE FINISH YOU WANT

CREAM, SALT & PEPPER, MEDIUM EXPOSURE OR FULL EXPOSURE

WHY CHOOSE AUSFLOORWORKS

- SINGLE CONTRACTOR DELIVERY
- PREMIUM CONCRETE SLAB QUALITY
- GUARANTEED ARCHITECTURAL FINISH
